The policies of the Central Bank of Egypt have succeeded in putting the Egyptian economy on the right track. This is evident in the increasing confidence of international institutions in the Egyptian economy, the rise in foreign reserves to unprecedented levels, the end of the black market of the currency and the increase in foreign investment flows. However, despite the optimism of these achievements, there are still some challenges facing the economy, including high inflation rates and achieving financial inclusion, in addition to the rise in external debt.

In this context the CEBC & ECSD have the pleasure to cordially invite you to its upcoming event with:

Mr. Tarek Amer

Governor of the Central Bank of Egypt

To discuss the topic:

"Financial Inclusion, Opportunities and Challenges"
