Dear Motaz,

In following closely the Canadian-Arab relations I wish to acknowledge the role and activities of the CEBC, in strengthening business relations between Egypt and Canada, an exceptional task that contributes to economic and business development between the two nations.

CEBC has made great strides in supporting, promoting and encouraging trade, investment, technical and economic cooperation between Canada and Egypt which adds to the mutual benefits extending well into the future. This solid role would enhance the contribution of the two economies in open markets and to a stronger trading system.

Finally, I wish the CEBC every success and more achievements.

Sincerely,

Amre Moussa
