H.E. Amira Fahmy
Ambassador of Egypt to Uzbekistan

It was a pleasure and honor to welcome the latest delegation from the Egyptian Council for International Cooperation (ECIC) to Uzbekistan in June 2024.

The bond between Egypt and Uzbekistan has been growing consistently and dynamically in recent years, underscored by the presidential visit of Uzbekistan President Shavkat Mirziyoyev in February 2023. He was accompanied by key ministers of trade, investment, health, tourism, culture, and energy, and during his visit, he praised the distinguished relations between our countries across all fields.

Following this visit, both nations have shown a strong desire to explore new business opportunities. Several agreements have been signed, further solidifying our bilateral cooperation.

As a result of these developments and with the continuous strengthening of our bilateral leadership, trade exchanges between Egypt and Uzbekistan have reached unprecedented levels compared to the previous year.

In this context, the visit of the Egyptian Business Council for International Cooperation marks another significant step towards enhancing bilateral relations. The business mission, which included parliamentarians, official entities, and was led by prominent business figures with tremendous vision, reflects the great interest of the Egyptian community in exploring cooperation with Uzbekistan across various sectors.

This visit provided a valuable opportunity to discuss and share experiences, know-how, and technologies, as well as to establish networks with economic partners and investors from Uzbekistan.

I am confident that such visits will serve as a catalyst for strengthening bilateral relations, fostering a friendly business environment, and deepening understanding between Egypt and Uzbekistan.

The presence of this diverse private sector mission in Uzbekistan has given a substantial boost to the evolving Egyptian-Uzbekistani economic relations, especially during a time of global economic challenges.

The spirit of cooperation between the Egyptian Embassy in Tashkent, the Chamber of Commerce and Industry, and ECIC has significantly contributed to the success of the mission. The multi-dimensional nature of the meetings held with representatives of the Uzbekistani private sector, government officials, parliamentarians, and notable Egyptian businessmen in Tashkent was truly remarkable.

It is crucial to maintain the frequency of mutual visits to ensure effective interaction and build more bridges, which will undoubtedly add value to the multifaceted economic relations between both countries.

I would like to extend my heartfelt appreciation to Eng. Motaz Raslan, Chairman of the Egyptian Business Council for International Cooperation, for this initiative that will assure future cooperation.

We look forward to capitalizing on the positive outcomes of this visit and highly encourage more engagement between the Egyptian and Uzbekistani sectors in the future.

for International Cooperation

ECIC is a non-for-profit NGO committed to foster the relations between Egypt and other countries, especially those who still do not have a representation in terms of business councils or chambers of commerce in Egypt. Both parties will work on enhancing the economic and business levels with an aim to introduce new markets and business opportunities to ensure successful win-win collaborations.

"I am immensely proud to be a part of the ECIC organizing team. On their behalf, I would like to extend my profound gratitude to our delegates for their unwavering support, active participation, and sincere dedication during our business mission to Uzbekistan. Our shared vision of discovering new markets and promoting Egypt's industry to the world guided us in choosing Uzbekistan as our destination this year, and it has proven to be an excellent choice.

This business mission allowed us to explore new dimensions of the Uzbekistani market, uncovering their needs and identifying key areas for mutual cooperation. We were privileged to participate in a business forum and engage with high-level officials from the ministries of higher education, agriculture, tourism, transport, health, energy, and investment. These meetings have paved the way for future and potential collaborations between the Egyptian and Uzbekistani counterparts.

We were fortunate to receive exceptional support from the Egyptian Embassy in Tashkent, the Uzbekistani Embassy in Cairo, and the Chamber of Commerce and Industry of Uzbekistan. Their contributions were instrumental to the success of our mission, and we are deeply grateful for their assistance and collaboration."

"The recent business mission to Uzbekistan was a resounding success. As the director of business development, I can confidently say that the agenda was packed with high-level meetings and discussions that uncovered tremendous potential for trade and investment between our two countries. Over the course of the 4 days visit, my colleagues and I had the opportunity to meet with government officials, industry leaders, and potential business partners. The networking events and the visits were especially valuable, giving us a firsthand look at the capabilities and resources available in Uzbekistan

Many meetings highlighted during this visit, our meeting with the Ministry of Agriculture, Ministry of Investment, Ministry of Transportation and Ministry of Health. They were extremely receptive to exploring new avenues for collaboration and expressed a genuine interest in strengthening the commercial ties between our nations. We discussed specific sectors ripe for investment, such as renewable energy, agriculture, health, leather, banking services, home appliances Textile and a lot more

Additionally, we toured in Samarkand which left us impressed by the history and skilled workforce and innovative practices in there.

I believe there are ample opportunities for knowledge sharing and joint ventures that could benefit both of our economies.

Overall, this business mission exceeded our expectations. We returned home with a wealth of new connections, market insights, and actionable ideas to pursue. I'm confident that with the right strategies and follow-up, we can capitalize on the momentum generated during this trip and deliver tangible results for our organization."

"I'm thrilled to be a part of the ECIC business mission this year. The mission was relatively compact, I am confident that we were able to make the most of our time in Uzbekistan as we were able to meet with government officials, local business leaders, and potential partners across several key industries. The insights we've gained and the relationships we've forged will undoubtedly prove invaluable as we continue to evaluate and pursue opportunities in this dynamic market.

I left Uzbekistan highly encouraged by the opportunities we've identified. With the right approach and commitment, I believe we can establish a strong foothold in this emerging market and unlock substantial long-term value for our business.

A sincere thank you to H.E. Amira Fahmy, Egypt's Ambassador to Uzbekistan, for her steadfast support and warm hospitality during our visit. I would also like to express our deep gratitude to the Uzbekistani Embassy in Cairo and the Chamber of Commerce and Industry of Uzbekistan for facilitating our business meetings and hosting the excellent forum for our delegation.

last but not least, I would like to take a moment to sincerely thank our delegates for their consistent support and active engagement."
