

Postponement

The challenges and conditions in the global economy have imposed tremendous pressure on the fiscal budget, whether in terms of rising prices of goods and services, or increasing public expenditure to enhance social protection, improve the standard of living, support and stimulate economic activity to mitigate the negative effects of these challenges.

The government has taken a package of measures to raise the efficiency of public expenditure, ensure optimal utilization of resources, and improve the structure of the state's general budget, in a way that contributes to achieving sustainable development goals, inclusive growth, and responding to economic development requirements.
