The Mining Committee *Cordially invites you to attend a committee meeting addressing* **“JETSWEEP Technology”**

Increasing Egypt's production of crude oil is one of the most important priorities that the Egyptian state is currently working on through the Ministry of Petroleum and Mineral Resources, in order to bridge the gap between production and consumption and reduce imports, as well as to face the natural decline of wells, due to the importance of making a breakthrough in the field of crude oil production along the lines of The successes achieved in the field of natural gas.

Therefore, the Ministry has planned a work program that focuses on improving and increasing the productivity of crude oil from existing fields, expanding exploration activities in concession areas, and raising the efficiency of the occupational safety and health system, pointing to the focus on applying the best ways to reduce the expenses of production costs per barrel, which contributes to the optimal utilization of the discovered resources.

In this context, Canada Egypt Business Council and the Egyptian Business Council for International Cooperation have the honor to invite you to attend a workshop to discuss and present “JETSWEEP Actual Mature Service” to develop and increase crude oil production at the national level.

With:

Eng. Sherif Hassaballah
