### **"The Vision of the Tax Administration in Egypt and the Challenges of Attracting Investments"**

#### **Under the Patronage of H.E. Dr. Mohamed Maait- Minister of Finance**

Taxes have been one of the key challenges of attracting investment in Egypt. Consequently, the government has worked over the past years to develop the tax system by implementing many projects and initiatives aimed at stimulating the investment environment, simplifying procedures, and integrating the informal economy, to achieve tax justice. Some challenges emerged with the development and mechanization plans facing the new tax system, therefore, the Egyptian Tax Authority adopted a new concept by intensifying communication with the business community and investment circles to exchange visions in order to stimulate the investment environment.
