

The Egyptian economy has faced tremendous challenges in recent years due to successive global crises that have impacted growth rates. In response, Egypt has implemented numerous reforms in fiscal policy, which have successfully led to several positive outcomes in the state budget, growth rates, and other economic indicators. However, sustaining this growth requires further reforms and solutions to secure the necessary funding to continue development plans, especially in light of the current events overshadowing the region.

In this context, Canada Egypt Business Council and the Egyptian Business Council for International Cooperation will hold its next forum
