

Over the course of 12 days, the COP 27 Climate Summit is witnessing fruitful discussions, which will reflect the aspirations and hopes of the global community, and the urgent desire to find radical solutions to confront the challenges of climate change. Indeed, the summit is coming out with a package of recommendations and proposals that seek to stop environmental pollution and preserve the planet for future generations. All of this requires concerted efforts, develop a binding road map to remedy the environmental imbalance, and discuss ways to save the proposed solutions to confront environmental issues, climate changes and reduce emissions.

In this context, Canada Egypt Business Council and the Egyptian Business Council for International Cooperation will hold its next forum
