

Ambitious plans and strategies are being implemented to rehabilitate and develop public business sector companies, with the aim of improving operating economies and localizing the industry in order to achieve economic development. The State Ownership Policy document came as a serious step aimed at creating an investment climate, expanding the participation of the private sector, stimulating it to pump new investments, managing state assets in an optimal manner, and exiting from some sectors. But are these plans affected by the current challenges? Are there controls to ensure that investments are pumped into the sectors that we need to upgrade?

In this context, Canada Egypt Business Council and the Egyptian Business Council for International Cooperation will hold its next forum

With:

**H.E. Mahmoud Esmat**

Minister of Public Enterprise Sector
