

The industrial sector, both locally and globally, faced enormous challenges during the past three years, exacerbated by the Russian-Ukrainian war, which caused high inflation rates, an increase in energy prices, disruption of supply chains and difficulty in obtaining production inputs. For its part, the Egyptian government has taken a package of initiatives, national strategies, and investment incentives to develop and support this sector, work to localize the Egyptian industry, support industrial project and achieve social development for the citizen. However, despite these efforts, capabilities and enormous wealth that Egypt enjoys, the industrial sector still faces some challenges that limit its launch and obtaining the position it deserves.

In this context, Canada Egypt Business Council and the Egyptian Business Council for International Cooperation will hold its next forum
