

The Egyptian Ministry of Agriculture has adopted a package of policies and programs to enhance the role of the agricultural sector in achieving food security and providing basic food needs. Indeed, the past period has witnessed unprecedented achievements and renaissance in land reclamation projects, development of the Egyptian countryside, and growth in agricultural exports.

But despite these achievements, there are still many challenges facing this sector towards achieving self-sufficiency in many commodities and penetrating global markets.

In this context, Canada Egypt Business Council and the Egyptian Business Council for International Cooperation will hold its next forum
