

The social protection file has received great attention from the political leadership, and many programs and initiatives have been launched to help the neediest layers and provide a decent life for all citizens. These efforts have achieved tremendous results in combating poverty and expanding the umbrella of social security. With the outbreak of the Coronavirus, focus has increased on this file, to protect some groups that have been affected by the repercussions of this epidemic. Accordingly this increased the challenges facing the government in providing the necessary funding to continue its policies in strengthening the social protection network.

In this context, Canada Egypt Business Council and the Egyptian Business Council for International Cooperation will hold its next forum which brings together
